

# You publish. We care.

 Copernicus Publications  
The Innovative Open Access Publisher

-  OPEN ACCESS
-  INTERACTIVE PUBLIC PEER REVIEW
-  MODERATE ARTICLE PROCESSING CHARGES
-  FINANCIAL SUPPORT
-  PERSONAL CUSTOMER CARE
-  ARCHIVING & INDEXING
-  LAUNCH YOUR JOURNAL

Promoting scientific  
**WORK** is our **FOCUS**.

Serving those dedicated to  
**SCIENCE** is our **PASSION**.

## OUR OPEN-ACCESS PRINCIPLE

We live a **threefold** open-access principle. All our posted preprints & peer-reviewed journal articles grant **immediate free access** to full-text PDF, HTML, and XML distributed through the most liberal licence CC BY. The **public peer review** invites the community to comment on papers prior to final journal publication. And authors properly cite their data sets, model software code, samples, and videos for **full asset linkage**. Authors lacking support of funds are assisted through our **financial support** programme.

## PUBLIC PEER REVIEW & TRANSPARENCY

To enable **full transparency** in scientific quality assurance & foster scientific discussion, we have applied our **public peer review since 2001**. A quick access review of any new submission is followed by posting the **open-access preprint**. Referees are nominated & post their **reports publicly accessible**. The **community** takes part in the review & publicly comments on the preprint while authors reply to all comments stimulating discussion. A revision of the preprint is finally checked before the **journal article** is published.

We apply Creative Commons licences.
